

WE'RE EXPERTS IN PEOPLE, PROCESS & TECHNOLOGY.

We see the big picture. More than a consultant, we're a partner dedicated to helping your business succeed.

Founded in 1999 and based in Overland Park, Kansas, we're a catalyst for growth, a spark for innovation, and facilitators of progress. We focus on staffing, recruiting, technology services, and consulting—all designed to make business better for our clients. But what does that really mean? Simply put, we are problem solvers.

- We start with your strategy, and we help define, develop and walk with you through implementation.
• We listen, and we hear what our clients are saying.
• We can help you find the right talent, with the best fit for your culture.
• We speak your language and understand your business.
• We scale our solutions to the size of your business and your challenge.
• We help you leverage your technology and simplify IT management.

RECRUITING + STAFFING

Our first priority is always matching high-quality candidates to the client's needs and culture.

TECHNOLOGY SERVICES

Building a technology roadmap that will move your business forward.

CONSULTING

We partner with you to identify strategic improvements and creative solutions to drive your business forward.

PAYROLL SERVICES

We save you time and stress and reduce your administrative burden by managing your contractors for you.

DID YOU KNOW?

51%

OF SMBs IT BUDGET ARE INDIRECT COSTS FROM OUTDATED TECHNOLOGY.

KANSAS CITY BUSINESS JOURNAL FAST 50 (2017)

THE PROPELLER

Like the hidden propeller beneath the surface, providing agility and speed, AdamsGabbert will serve as your source of momentum, working behind the scenes to give your business the power to accelerate growth.

Every business leader needs someone to ask the question, "Have you thought about this?"

RECRUITING + STAFFING

The speed of change means our businesses are moving faster, while time and resources are limited. High-quality people drive business success, and we help identify and tackle the recruitment burden to meet your business goals. Constantly mining for talent, we're experts in matching people's skills and experience to your specific needs. We focus on the relationship and get to know you – your business and your culture – so we can find high-quality candidates who fit from day one. Contract, contract-to-hire, or direct hire—we only present the best: candidates who are leaders, experienced, credentialed and solution-focused. Through our extensive screening and interview process, we'll find you the best of the high-achievers. And we stay by your side all along the way.

TECHNOLOGY SERVICES

Your technology impacts your bottom line. Today, the majority of small-to-mid-sized businesses (SMB) do not have an internal IT team to support their current technology needs. Without expert support, SMBs often piece together multiple applications that are ineffective and redundant. These out-of-date practices end up costing them time, money and resources that is spent on fixing the issues and not on running their business. As your managed IT service provider, we're able to seamlessly integrate into your business to understand your technology needs, barriers, culture and goals by offering:

- IT Assessment and Guidance
- Proactive Maintenance
- Managed IT Services
- Monthly Reporting
- Security
- Cloud Migration

CONSULTING

What's changing your business the most? Probably speed—of almost everything. Our focused expertise gets fast and credible results for our clients. People are often blamed for inefficiency and ineffective work when the cause of problems is due to poor work processes, and lack of expert project management. Did you know an average business process contains 80 percent of "non-value-added" activity? We're problem solvers. We roll up our sleeves and work alongside you, getting in the trenches to learn your business inside and out—truly accepting that role of partner.

Proud to be a certified WBE, AG's overarching philosophy is to deliver on our promises to our clients, our associates and our community. We know our success relies on delivering results for you.
