

MICROSOFT PARTNERSHIP

ISN'T IT TIME YOU USED OFFICE 365 TO ITS FULL POTENTIAL?

Businesses across the U.S. are paying for Office 365 suite of services, but are barely grazing the surface when it comes to its robust capabilities. Sure, you may be a pro when it comes to Word, Excel and PowerPoint, but what about connecting with customers through Skype for Business or internally with coworkers through Teams and Yammer? You now have the opportunity to bring teams and resources together into one place through Tasks; streamline project management with Planner; and even simplify the always complicated CRM systems through Dynamics 365...all of these capabilities are now under a single, dynamic IT platform.

Office 365 integrates productivity tools, security configuration and device management into a singular, best-in-class solution.

Taking our consulting services to the next level for business through our partnership with Office 365, we're helping companies eliminate the use of multiple systems (which can increase your security threat), streamline processes and communication and allow you easy access to every file or folder you need on any device.

Office 365 includes:

- Comes with Office**
Stay up-to-date with the latest versions of Word, Excel, PowerPoint, and more.
- Email and calendaring**
Connect with customers and coworkers using Outlook and Exchange.
- File storage**
Manage your files from anywhere with 1TB of storage.
- Dependability and support**
Get 99.9% uptime guaranteed and 24x7 online and phone support.
- Safest Windows ever**
Get upgraded to Windows 10 Pro from Windows 7 and 8.1 Pro.
- Cyberthreat protection**
Help protect PCs from malware, viruses, and spyware.
- Data protection controls**
Help secure business data on personal and company-owned devices.
- Administration and deployment**
Manage new PCs and devices faster and more easily than ever.

Office 365 is designed to fit businesses of all sizes, and it has the robust technology capabilities to support it. However, our specialty at AG is helping small-to-medium-sized businesses who don't have access to the resources larger corporations have. We like meeting our partners face-to-face, assessing what your company's unique needs are and building a road map together to move your business forward. We'll be your Office 365 expert, so you don't have to be. Microsoft's business solution:

- Helps companies achieve more together by better connecting employees, customers and suppliers.
- Empowers employees to get work done from anywhere, on any device.
- Protects company data across devices with always-on security.
- Simplifies the set-up and management of employee devices and services with a single IT console.
