

## Your technology services impact your bottom line.

Today, the majority of small-to-mid-sized businesses (SMB) do not have an internal IT team to support their current technology needs. Without expert support, SMBs often piece together multiple applications that are ineffective and redundant. These out-of-date practices end up costing them time, money and resources that is spent on fixing the issues and not on running their business. But don't just take it from us; **the data backs it up:**

**27%** of small businesses do not have IT support.

**84%** of SMBs rely on some kind of manual process instead of automated systems every day.

**59%** credit their tech partnership and outsourcing for helping them cut costs.

**51%** of SMBs IT budget are indirect costs from outdated technology.

## SIMPLIFY YOUR IT MANAGEMENT

We've worked with and listened to dozens of clients who end up frustrated and burnt out managing their technology systems, constantly spinning their wheels and never seeing the results.

**We wanted to do more than just listen. We wanted to solve the problem.**

As your managed IT service provider, we're able to seamlessly integrate into your business to understand your technology needs, barriers, culture and goals by offering:

-  IT Assessment and Guidance
-  Proactive Maintenance
-  Managed IT Services
-  Monthly Reporting
-  Security
-  Cloud Migration

# Isn't it time you used Office 365 to its full potential?

Taking our consulting services to the next level for business through our partnership with Microsoft, and utilizing the Office 365 tool, we're helping companies eliminate the use of multiple systems (which can increase your security threat), streamline processes and communication and allow you easy access to every file or folder you need on any device.

*Office 365 integrates productivity tools, security configuration and device management into a singular, best-in-class solution.*

Office 365 is designed to fit businesses of all sizes, and it has the robust technology capabilities to support it. However, our specialty at AG is helping small-to-medium-sized businesses who don't have access to the resources larger corporations have. We like meeting our partners face-to-face, assessing what your company's unique needs are and building a roadmap together to move your business forward. We'll be your Office 365 expert, so you don't have to be. Microsoft's business solution:

-  Helps companies achieve more together by better connecting employees, customers and suppliers.
-  Empowers employees to get work done from anywhere, on any device.
-  Protects company data across devices with always-on security.
-  Simplifies the set-up and management of employee devices and services with a single IT console.

## Office 365 includes:

 <p><b>Comes with Office</b> Stay up-to-date with the latest versions of Word, Excel, PowerPoint, and more.</p>	 <p><b>Email and calendaring</b> Connect with customers and coworkers using Outlook and Exchange.</p>	 <p><b>File storage</b> Manage your files from anywhere with 1TB of storage.</p>	 <p><b>Dependability and support</b> Get 99.9% uptime guaranteed and 24x7 online and phone support.</p>
 <p><b>Safest Windows ever</b> Get upgraded to Windows 10 Pro from Windows 7 and 8.1 Pro.</p>	 <p><b>Cyberthreat protection</b> Help protect PCs from malware, viruses, and spyware.</p>	 <p><b>Data protection controls</b> Help secure business data on personal and company-owned devices.</p>	 <p><b>Administration and deployment</b> Manage new PCs and devices faster and more easily than ever.</p>

***It's time to leverage the technology you already have (and are paying for), and it's time to empower employees, safeguard your business and simplify IT management. We'll help you start the process today.***
